

# KIRF- I know number bonds to 5

EYFS- Summer 1

Concrete:

What can this look like?

Pictorial:

Abstract:

2 and 3 make 5

$$2 + 3 = 5$$

$$5 - 2 = 3$$

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey?

## Questions to ask at home

- What do we need to **add** to 4 to **make** 5?
- If I have 3, how **many more** do I need to get to 5?
- What is **2 less than** 5?

## Key vocabulary

What is 3 **add** 2?

What is 2 **plus** 3?

What is 5 **take away** 2?

What is 1 **less than** 5?

## Things to try:

**Everyday Objects-** Gather together up to 5 objects and separate them in as many different ways as possible, write the calculation to match each one.

**Bubble numbers-** Write the numbers 0-5 on large pieces of paper, shout out a number 0-5 and then ask your child to blow bubbles at the right number to make 5 (This could be replaced with claps instead of bubbles)

**Bunny ears-** Decide on a number to make. Put your hands on your head as 'ears' and challenge your child to make 5, e.g. show two fingers on one hand and three on the other.
